Wed. Night

Dear Harold and Lil,

Your letter came at a really good time, I needed a little cheering up. Late saturday night my mother took a very serious fall. She was unconscious until monday. She has a bad concussion and stitches. She seems a little bit better today. The docto says that she is going to be fine. She sure gave me a scare. I was so glad to be here when it happened.

I'll send the letter to Lila right away.

I talked to Floyd yesterday, and he told me that he will be doing the barbecuing. He told me he's doing very well in Economics.

I'm pretty sure that I'll still be able to come for the 4th. I talked to Lila on saturday and everything is fine with her. I was glad to hear that. I'm glad to hear that everything is going so well in court, and I am anxious to hear what's going on. Sorry this is so short but I haven't slept since friday and I am going to the hospital about

8:00 in the morning, and I really feel exhausted! Take care of yourselves and my thoughts are often with you both and I miss you both.

All my love,

Kim
